

RAK CERAMICS INDIA PVT LTD

Company Profile

Dr Khater Massad – CEO

Mr Sunil K. Malesha – GM

Within short span of fifteen years RAK Ceramics has firmly established itself as one of the world's leading producers of high quality ceramic wall & floor tiles, vitrified tiles, and sanitary ware.

RAK Ceramics' drive for excellence and an insatiable appetite for quality and customer satisfaction were accredited with the ISO 9001 certification by CICS (Ceramic Industry Certification Scheme), UK in 1997. At present, the company's products are being exported to more than 135 countries across five continents. RAK Ceramics, UAE, presently is engaged in the production of about 400,000 sq m per day of ceramic / vitrified tiles and about 22,000 pieces of sanitary ware per day.

In India, RAK Ceramics has the largest and most ultra modern state of art vitrified tile manufacturing plant in Andhra Pradesh with a manufacturing capacity of 20,000 sq m of vitrified tiles and about 1,500 sanitary ware pieces per day. RAK ceramics is the only company in India to manufacture "GenNext technology based product".

The most ultra modern Italian plant and huge production set up backed by the strong R & D and visionary leaderships has sincerely won the esteem trust of its customers across the country. And thus the company has been regularly widening its wings in the potential markets.

As a trend setter, RAK Ceramics' latest varieties and shades are spread to more than 6000 designs. A high class size & finish mix give an extra edge of selection to its customers. A wide range of sizes of vitrified tiles (available from 6 ft by 4 ft to 4 inch by 4 inch) enables its customers to gratify their decors as per their own wish.

Currently RAK is available through a close knit network of 18 exclusive showrooms and over 600 dealer showrooms across India with product portfolio ranging from fully vitrified polished, unpolished, semi-polished, rustic and glazed rustic tiles.

Having its base at Ras-Al-Khaimah, UAE, "Excellence is the way of life" in RAK Ceramics, pushing each and every one connected to it for the best customer satisfaction.
